政策科学研究特別講義(PH) Identification of Sustainable Japan's International Cooperation				上久保 誠人
授業の概要				
The objective of this course is to give students an overview of Japan's international cooperation. This course will provide practical knowledge on Japan's international cooperation, including the new project identification, implementation and evaluation. And the participants can also learn the issues of sustainability in international development cooperation, particularly through the actual projects implemented in Asia, Middle East and African countries etc. Moreover, This course will examine several actor related to Japan's international cooperation, such as politicians, Ministry of Finance (MOF), Ministry of Foreign Affairs (MOFA), Ministry of Trade, Economy and Industry (METI), foreign countries, and so on. In this course, the instructor and guest speakers give lectures by rotation.				
到達目標				
Each student is expected: ① to enhance the general understanding of Japanese international cooperation; ② to understand the current sustainability issues in international cooperation; and ③ to develop the idea of identification of an attractive sustainable project in developing countries.
