政策科学研究特別講義(PH) Identification of Sustainable Japan's International Cooperation	前期	火曜 6 時限	2	上久保 誠人
授業の概要				
This course aims at acquiring practical knowledge on international cooperation, including the new project identification, implementation and evaluation. And the participants can also learn the issues of sustainability in international development cooperation, particularly through the actual projects implemented in Asia, Middle East and African countries etc. In this course, the instructor and three part-time lecturers and guest speakers give lectures by rotation.				
到達目標				
Each student is expected: ① to enhance the general understanding of Japanese international cooperation; ② to understand the current sustainability issues in international cooperation; and ③ to develop the idea of identification of an attractive sustainable project in developing countries.
